

CHARLOTTE RESEARCH INSTITUTE

FUNDING PROGRAM DESCRIPTION:

WACHOVIA FOUNDATION FUND FOR FACULTY EXCELLENCE WACHOVIA SUMMER STIPENDS PROGRAM (NEW FACULTY)

Untenured junior faculty members affiliated with the Charlotte Research Institute are invited to submit proposals for a Wachovia Faculty Fellowship. A Wachovia Foundation endowment gift to UNC Charlotte makes these awards possible. Fellowships are competitive research grants and are awarded on the basis of the submitted proposals. Wachovia Summer Stipends are intended to assist junior faculty during their first summer at UNC Charlotte. Accordingly, stipend proposals may be submitted by newly recruited faculty or by recruiting departments as part of the initial offer of employment.

This year, \$8,000 is available for allocation, \$4,000 for each program. We request that proposals for no less than \$1,00 and no more than \$4,000 be submitted in either category. Proposals should specifically address the impact of the proposed work on the mission of the Charlotte Research Institute. Proposers are asked to append, on a single sheet, a biographical sketch and a summary of their research directions and goals to their proposal. Department chairs proposing on behalf of new faculty recruits should extract this information from the candidate's vita.

The proposals may be submitted to the executive director until March 31st. A committee comprised of the Institute's center directors, the executive and associate directors will make the final decision. The executive director will, following consultation with all of the committee members, make the award decision.

A report on the results of the accomplishments that resulted from the support will be required within one month of the end of the term of support.

CHARLOTTE RESEARCH INSTITUTE

Vision

The Charlotte Research Institute will enhance the technology infrastructure of the Charlotte region by facilitating the development of intellectual capital through global collaboration with industry, academia and government to create a top-tier interdisciplinary technology research community.

Mission

The mission of the Charlotte Research Institute is to facilitate the development of applied technology by:

- Pursuing strategically planned and focused interdisciplinary research programs in collaboration with industry, academic and government sectors that will generate world recognized accomplishment.
- Advancing the development of human and intellectual capital by attracting and leveraging expertise and resources to enhance the research, academic and technology foundations of the region.
